

## **UPCOMING UPGRADE TO ON-LINE LUNCH PAYMENT SYSTEM**

The school district, in partnership with Sodexo School Services, will be implementing a new computerized debit system from Horizon and, also, "MyPaymentPlus" to provide parents access to their child's account. This site will also be used to make electronic payments.

The upgraded system will be both user-friendly and efficient for parents and staff. By upgrading to this system, students will spend less time in line each day to pay for lunch.

All new login information will be mailed to you directly. All balances in your current account will roll over.

Please watch for more detailed information arriving at your home in the mail, the first week of February. There will also be AlertNow email and phone messages as well as information posted on the district web site.

The high schools and middle schools will change on February 17 and the elementary schools will change on February 20.
