Session Descriptions

Premier Martial Arts

The ABC's of Success through board breaking ties martial arts movements and concepts to life skills. Goal setting, discipline, focus and speed of execution are all discussed. The primary technique taught is a side kick.

Kids Choice

Kids will choose from a variety of activities/sports to keep them engaged and active!

Young Rembrandts

Take part in a variety of drawing and art projects that are not only fun but increase overall academic skills, fine motor skills, social skills and confidence.

*No program 3/31 (Spring Break)
Programs are subject to change

Yoga Flow and Play

This fun, integrative practice is aimed to help children learn how to exercise, develop confidence, and concentrate better. It consists of a series of breathing exercises, basic yoga poses, and relaxation techniques. Participants required to bring own mat.

Chess—Check Mate!

Delve into the fascinating world of chess! Learn the basics or study the moves of the masters during these exciting sessions.

Incredible Lego Build

From free play to building an entire city with architect John Peine, kids will have fun learning about architecture, design, engineering, and city planning as they create with Legos.

* All Legos and K'Nex will be provided. Please do not bring your own.

First Stage Playmakers

Bring your favorite story to life through exploring motivations, choices and actions while creating dialogue and improvising scenes.

Science Adventures with Mad Science

Are you a MAD SCIENTIST in the making? These are Mad Science's coolest bits and pieces! We're revvin' up the lab to bring you our most fun experiments! WARNING....This is so much fun you might forget you're learning! Classes are filled with Hands-On Experiments and cool Take-Home examples
