Site Design Charrette

2. Tuesday, January 15th @ 6:00PM

Schematic Design Presentation &
Neighborhood Commentary

Community Input

Coming Soon: Online Image Survey & Conversation

Moderated online forum to discuss and provide feedback to the design team on representative examples of elementary schools.

Artifact Scavenger Hunt

Purpose:

Search the existing building to find good things that give this school its character. These elements will help inform the creation of a unique design for the new neighborhood school.

Directions:

1. Form a team of 3 – 4 people.
2. Grab a floor plan and some pens.
3. Walk the building, circle areas on the plan where those good things are, make a note, take a picture!
4. E-mail any pics you wish to share to the address provided at the end.
5. Reconvene here at 6:00 to share out some of your finds.

Artifact Scavenger Hunt

Team Share:

- What did you find that makes this building unique?
- Are there elements that should be replicated in the new building?
- Are there elements that could be saved and reused in the new building?
- How should the existing character of this building be reflected in the new building?
