

Long Range Facilities Planning Community Workshops Highlights

The Wauwatosa School District (WSD) is exploring long range facilities needs with the support of our Board, a citizens-based Facilities Advisory Committee (FAC), and our community.

Here are highlights from our fall Community Workshops.

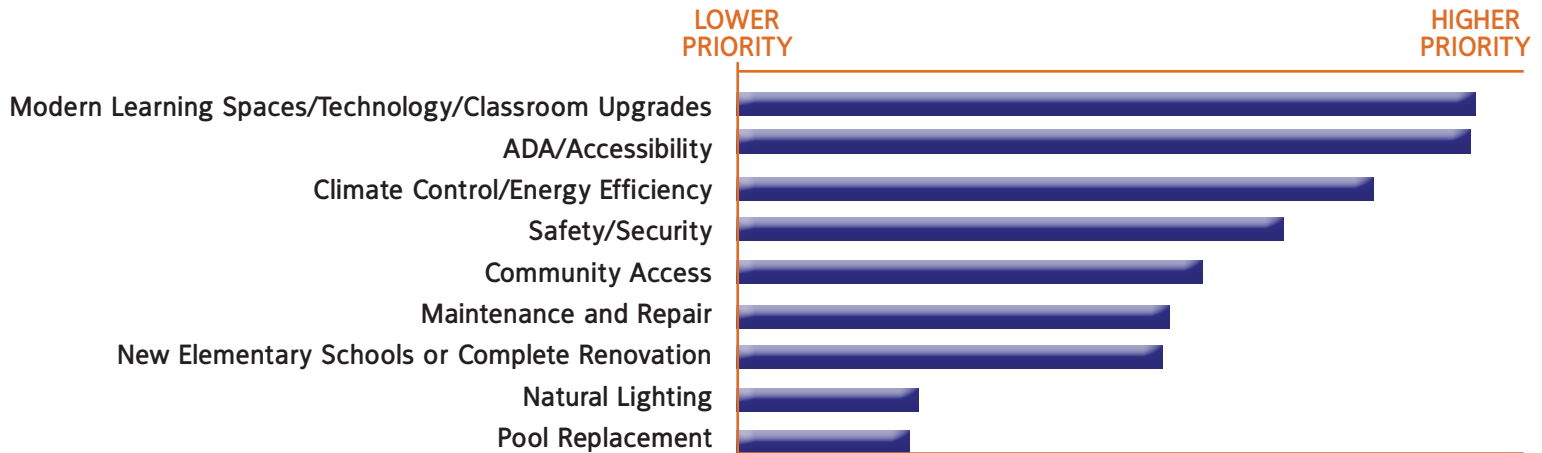

Workshop participants:

- Reviewed findings from the WSD Facilities Study
- Identified priorities for our aging schools
- Discussed criteria for modern learning and a “model school”

130+ PARTICIPANTS

6 Community Workshops

Participants were asked to prioritize needs for master planning. Items listed below were most frequently identified as priorities. Participants were not given a specific list to prioritize. The discussion was open-ended to gather as much organic feedback as possible.
