

The Right At School JKWRAP Half Day Program at Wauwatosa

Our preschool environment and instructional approach are based on the belief that young children learn best by doing. We use exploration centers and theme-based projects to promote creative and critical thinking skills. Children have opportunities to investigate what interests them, solve problems, discover relationships, and make comparisons. Our preschoolers participate in project investigations in literacy, math, science, and the creative arts. Circle time, music, large motor play, and lunch time are all enriching parts of our daily routine that promote socialization, movement, community, fitness, and wellbeing.
